As George Orwell warned long ago, this dangerous nightmare has arrived.

As we rush towards 2024, one doesn't have to look too far to see our e completely insane with stories all across the internet proving the lunacy we're now

living in as we also are rapidly herded towards World War 3 and what could become 'nuclear Armageddon' unfolding overnight.

With that complete and total insanity seen perfectly in this Rebel News story [link below] from a couple of days ago reporting a *'swimming competition'* just north of Toronto, Canada has allowed a 50-year-old biological male, who '*identified*' as a young girl, to compete against REAL 13 year-old girls, along with using the girls locker room to change his clothing, where do we go as a society from here when we've already reached this level of warped and insane madness?

Happening also at a time when countless members of '*Generation Z*' are in the US military as people proud to label themselves as '*drag queens*' as seen in this *'Libs of Tik Tok'* post on X, as this Zero Hedge story also alarmingly points out, that same generation is also claiming they'll never go fight in US wars if eventually drafted, a scenario that is looking more and more likely every day with joe biden and the globalists now rushing head first into more and more of their endless wars.

And as we've also reported on ANP numerous times previously over the past year +, this is all happening at a time when *'goodness'* is being called *'evil'* by the globalist cabal, along with *'evil'* being labeled as *'goodness'* by the same psychopaths, meaning we're well on our way towards the completion of an *'Orwellian'* reversal of reality.

As George Orwell had warned us all long ago in dire warnings that slipped completely past most Americans, ***"the further a society drifts from 'the truth,' the more they will hate those who speak it"***. And that warning from decades ago is clearly more true today than it ever has been with that same group of psychopaths attempting to cement their never-ending lies as '*truth*' while demonizing those who speak it.

As Jason Bermas and JP Spears discuss in the 1st video at the bottom of this story entitled *"Making Sense of the Madness,"* we as a society have gone off the deep end under globalism and the globalist agenda which has been pushed across the planet and it will only get worse if we don't put a stop to it.

And with America's descent into madness also seen perfectly in this story Steve Quayle linked to on his website over at The People's Voice reporting a WEF professor

recently declared it's time global government's allow *pedophiles to buy children for sex and ditch 'outdated' laws that prohibits sexual contact with minors,* reporting *WEF-funded* Johns Hopkins professor Jules Gill-Peterson is right now urging governments to remove the stigma around supporting child "sex work" by starting a "mass movement" to turn the tide of "moral panic" over the idea, every day we see the lunacy expanding.

Yet while the left continues to blame '*America First Trump supporters*' for this rapid descent, as this story from CNN from October of 2022 reports, we've reached a point where a whopping 90% of Americans think America is right now going through a '*mental health crisis*,' this on joe biden's watch.

Yet why should any of us be surprised by that at all, living in a country where truths are called lies and lies are labeled as *'truth'*? As George Orwell also warned us all the way back in 1940,

> *"Almost certainly we are moving into an age of totalitarian dictatorships – an age in which freedom of thought will be at first a deadly sin and later on a meaningless abstraction. The autonomous individual is going to be stamped out of existence."* And *"The moral to be drawn from this dangerous nightmare situation is a simple one. Don't let it happen. It depends on you."*

With *'totalitarianism'* needing their endless lies to be looked upon as *'the truth'* while they throw their tremendous energy behind demonizing anyone who still speaks the truth to power in this day and age, we can see warnings coming true before our very eyes from *"1984"* and *"The Gulag Archipelago"*.

In Stalinist Russia, Aleksandr Solzhenitsyn noted that one could never be sure whether one's neighbors, friends, co-workers, the postman, or even in some cases one's own family, would report to the secret police a slip of the tongue, a criticism of Stalin or of Communism. For if one was reported their fate was usually sealed: the police would knock at the door in the middle of the night and soon after one would be given the standard sentence of a "tenner" – that is, 10 years in the slave labor gulag prison camps. This form of surveillance created social conditions wherein most citizens

adopted hypocrisy and lying as a way of life, or as Solzhenitsyn explains in The Gulag Archipelago:

> *“The permanent lie becomes the only safe form of existence….Every wag of the tongue can be overheard by someone, every facial expression observed by someone. Therefore every word, if it does not have to be a direct lie, is nonetheless obliged not to contradict the general, common lie. There exists a collection of ready-made phrases, of labels, a selection of ready-made lies.” ` Aleksandr Solzhenitsyn, Gulag Archipelago*

In addition to a ubiquitous state of fear, in totalitarianism there exists a widespread state of confusion and mental disorientation amongst the citizenry. Joost Meerloo explained:

> *“Many victims of totalitarianism have told me in interviews that the most upsetting experience they faced…was the feeling of loss of logic, the state of confusion into which they had been brought—the state in which nothing had any validity…they simply did not know what was what.” (Meerloo) -Joost Meerloo, Rape of the Mind*

In 1984, widespread mental disorientation was stimulated via the falsification of history, and the negation of the concept of objective truth. The Ministry of Truth was the institution which falsified history.

> *“Everything faded into mist. The past was erased, the erasure was forgotten, the lie became truth.” ~ George Orwell, 1984*

One of the reasons totalitarian regimes attempt to alter history is because it rids the society of any past reference points, or standards of comparison, which might remind the citizens that life in the past was so much better than it is in the sterile and oppressive present.
